# Return on Investments

CRYPTOCEAN Profit Forecast for 2018 – 2023\*

- Key:
  - The critical period is 2020–2021
  - The negative balance is \$21mIn
  - Thus Soft Cap ICO
- Risk factors:
  - The unpredictability of the cryptocurrency market
  - The volatility of the cryptocurrency market
  - The uncertainty of how to regulate
  - Inprecise nature of forecast data
- Our strategy:
  - To collect Soft Cap x2...3 (Hard Cap)
  - To send to the ecosystem Exchange
  - To use incomes for purchasing tokens
- Allows:
  - To mitigate the above risks
  - To increase the token's rate

\* -all of the indicators are forecasts and can differ in real life
